

— PRACTICE

**Small firms are
adopting AI faster.
That is not an
accident.**

SWIPE ►

— THE ADVANTAGE

Decision speed, not budget

A 20 person firm can decide on Monday, pilot by Wednesday, and change its standards by the end of the month.

— THE FRICTION

Committees slow everything down

A 2,000 person firm needs a committee to approve each of those same three steps.

— THE FIX FOR LARGER FIRMS

Delegate the pilot, not the decision

Give one office or one studio the authority to run its own pilot and report back.

— A E C E N T R I C

Let results decide what scales

One team, one workflow, twelve weeks. Expand only what the numbers support.
