

— PRACTICE

**An AI training plan
that fits in one
lunch hour a week**

SWIPE ►

— WHAT WORKS

Pick one real task

Not a demo. Something from a live project the team already touched this week.

Show the fix, not just the result

One person walks through what they asked for, what came back, and what needed correcting.

— WHAT WORKS

Spread it across the team

Working prompts stop living in one person's chat history and start becoming the firm's.

— A E C E N T R I C

It costs nothing but the hour

The fix-it discussion is where the real training happens, every single week.

Full breakdown at the link in bio.
