ACEC: the biggest AI risk to engineering firms is not technical

SWIPE ►

— THE FINDING

Eight risk domains, and leadership tops them

ACEC Research Institute, Aug 19 2026. Interviews with 21 leaders across firms, owners, insurers and regulators named eight risk domains, from technical reliability to strategic leadership.

AI does not lower the standard, it raises it

The report's own line: firms treating AI as an IT initiative are managing the wrong issue. It raises the standard for governance and judgment.
